In July 2016, ROBLOX claimed that after the introduction of the new games and improved networking system "We will be supporting many more platforms than before." They also had made the game better so they would offer it on more than Windows, Mac OS X (Snow Leopard and below), Linux (Ubuntu and below).

This tool has already been verified by many players and I can confirm that it works perfectly fine as intended. The company itself has not ever made such uses of VR technology but have given their developers access to the SDK in order to promote VR technology. The company is planning on releasing an SDK for Sony's Project Morpheus and Oculus Rift at some point in the future, although no dates have been officially announced. However, ROBLOX has been criticized due to their unusual (less than the minimum) end user license agreement. Roblox has released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

ROBLOX also provides a currency called Robux that players can use to access items within ROBLOX, such as buying backgrounds and avatars. [36] Players can get 10 ROBUX for free upon signing up, but if they choose to purchase blocks, they need more than 10 ROBUX upon signing up. They must either use their free ROBUX or buy some ROBUX. They can earn more by selling items they create in the ROBLOX catalog, but most often they earn ROBUX by playing the many games on ROBLOX.[37]

ROBLOX was launched on March 9, 2007. ROBLOX later went under the name "Genesis". ROBLOX officially changed its name to ROBLOX on November 3, 2007. On March 15, 2009, ROBLOX's new style was made official. Then on March 22, 2009, a new logo was released for the first time since 2007. On August 7th, 2010 it went back to its original look. On February 23rd 2011 ROBLOX announced the launch of Minecraft Clone called Blockland. Then on May 19, 2011 ROBLOX announced it had launched a new engine. On December 18, 2011 ROBLOX announces a new game called Roblox City Builder.
